“Topics Facing Rheumatology in America:”, Coalition of State Rheumatology Organizations 2020 Advocacy Conference, Virtual conference September 12 2020

[36:86 LaunchTN.ORG – Vanderbilt University, Virtual Event, August 17 2020](#)

[The U.S. Response to COVID-19: Federal Check-In](#)

(preceded by Vanderbilt Business ad)

The outbreak of COVID-19 has provided unprecedented challenges across social, macroeconomic, and public health crises. During 36/86: Health Day 1, we'll first hear how federal first-responders took in data to weigh the economic and public health decisions for a nation, and what the monitoring, reaction, and evolution of our response will look like in the months to come.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs Vanderbilt University Owen Graduate School of Management
- Dr. Stephen Parente, Senior Economist on the Council of Economic Advisers in the Executive Office of the President at the White House

[The U.S. Response to COVID-19: State Check-In](#)

(preceded by BuildTN: Memphis spotlight)

State governments and health systems have responded to COVID-19 by addressing the challenges unique to their cities and towns, with a variety of plans, phased reopening, and data being illustrated across the country. Here we'll check in how responders at the state level have watched their own health infrastructures adapt to the anticipated, and then actual, impact on their region.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Dr. Lisa Piercey, Commissioner, Tennessee Department of Health

[The U.S. Response to COVID-19: City Check-In](#)

How does a metro area's COVID-19 response follow federal and state actions? How do all the layers interact with each other? We'll sit down with Dr. Alex Jahangir, Chairman of the Metro Nashville Board of Health to discuss how a city has dealt with the complexities of public health and economic challenges to protect its residents.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Dr. Alex Jahangir, Chair, Metro Nashville Coronavirus Task Force & Metro Board of Health, Metropolitan Government

[The U.S. Response to COVID-19: Economic Impact](#)

So, what have we learned so far? In this conversation with economic experts and analysts, we'll dive into the economic aftershocks of COVID-19's arrival in the U.S., the national response to the virus, and where we go from here.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Dr. Art Laffer, Founder & Chairman, Laffer Associates
- Doug Holtz-Eakin, President, American Action Forum

[The U.S. Response to COVID-19: Clinical Impact](#)

If you have questions about the nation's individual and clinical reactions to COVID-19, are interested in medical professionals' perspectives on the social elements of the outbreak, or just want the latest on coronavirus do's and don'ts, this session is for you. Larry Van Horn sits down with Johns Hopkins' Dr. Marty Makary and leading health authority, Senator Bill Frist, M.D. to deliver perspectives on the pandemic at a personal level.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Senator Bill Frist, Founder, Frist Cressey Ventures
- Dr. Marty Makary, Surgeon & Professor of Health Policy, Johns Hopkins

[Telehealth 101: America's Move to Healthcare from Home](#)

The shift to telehealth and remote screenings has been one of necessity in the past year for many individuals seeking to receive care while controlling risk of exposure to the novel coronavirus, but how is it stacking up against traditional forms of care? We'll go back to school with renowned expert and researcher on healthcare management and economics, Larry Van Horn of Vanderbilt University, as he dives into the data around the rise of telehealth during the pandemic.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management

[Healthcare from Home: Bringing an Academic Health Institution Online](#)

(preceded by Vanderbilt Business ad)

Managing more than 2 million patient visits each year, Vanderbilt University Medical Center (VUMC) is one of the largest academic medical centers in the Southeast, and with the coronavirus pandemic they're now ramping up efforts in expanding remote health services to address their vast patient base. This session will cover the latest and greatest in telehealth use cases, technology, and the impact on the infrastructure and delivery of care in a post-pandemic world.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Derek Anderson, VP of Business Improvement, Vanderbilt University Medical Center
- Amber Humphrey, Director of Telehealth Services, Vanderbilt University Medical Center

[Meet the C-Suite: B2B Telehealth with Access Physicians](#)

How are the execs behind different telehealth businesses coping with rapid-fire changes and planning for the future? We'll sit down with the B2B and consumer sides of the equation to learn the essential components of telehealth business models.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Dr. Chris Gallagher, CEO, Access Physicians

[The CMO Approach to Telehealth Solutions](#)

As hospitals have been placed at the front lines of the response to the pandemic, the disruption to operations and capabilities has called for innovative solutions and agile adoptions of new technology by decision-makers. We'll sit down with health system leaders to hear more about dealing with a systemic shock to their care networks and how telehealth and solutions borne from the pandemic response are being evaluated and applied to their hospitals.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Dr. Lynn Simon, President, Clinical Operations & Chief Medical Officer, Community Health Systems
- Dr. Christopher Rehm, SVP & Chief Medical Officer, Life Point Health

[Telehealth 201: The Evolution and Innovation of Telehealth Platforms](#)

By this point, you're now familiar with the data, businesses, and models of adoption and implementation behind the telehealth emergence — but is it here to stay? We'll dig deeper into discussing the shift to telehealth and remote screenings as a reaction, or how it may well become a consistent option to expand ease and accessibility to care.

- Larry Van Horn, Associate Professor of Economics & Management, Executive Director of Health Affairs, Vanderbilt University Owen Graduate School of Management
- Drew Livingston, Chief Innovation Officer, Harrow Health Inc.
